

# Triple 4K60Hz + 96W Charging – One Cable Desktop Solution

USB-C 14 in 1 Triple 4K Display  
Docking Station

## Key Features

- ◆ Supports up to three 4K60Hz displays
- ◆ Expands into 14 ports – including 2 USB-C & 4 USB-A (6 high-speed USB)
- ◆ Up to 96W power delivery for laptops
- ◆ Sleek horizontal design with VESA mounting – cleaner workspace

The DUD3571 USB-C 14-in-1 Triple 4K Docking Station helps you keep your desk organized while staying productive. With up to 96W laptop charging and 20W PD for mobile devices, you can stay powered without carrying extra chargers.

Connect up to three 4K60 displays through dual DP/HDMI and HDMI ports, giving you the space you need for multitasking, creative work, or managing multiple windows. High-speed USB ports, SD4.0 card reader, and Gigabit Ethernet ensure fast transfers and stable connectivity.

With a single USB-C cable, the DUD3571 powers, connects, and expands your entire workspace—bringing simplicity and efficiency to any modern setup.
