

# USB-C Universal Dual 4K Display Docking Station

DUD7420

The USB-C Universal Dual 4K Display Docking Station DUD7420 is a USB-C docking station designed for professionals, featuring a rich array of connectivity options and stable high-resolution display output to significantly boost productivity. With a single USB-C connection, users can easily link dual 4K monitors, audio devices, Ethernet, and multiple USB peripherals—all at once. Equipped with seven USB ports, including both Type-A and Type-C, it offers exceptional expansion flexibility, making it easy to connect daily essentials like a mouse, keyboard, or external storage without constant plug-swapping.

VESA mounting support allows the dock to be conveniently installed behind a monitor or beneath a desk, helping to streamline cable management and maintain a clean, organized workspace. This not only enhances work efficiency but also reflects a personalized and professional aesthetic. Built with durable materials and tested for broad system and environmental compatibility, the DUD7420D1 supports Windows, macOS, and Chromebook, making it an essential expansion solution for modern offices and creative setups.

## Feature

- Power your laptop and connect all devices through one streamlined USB-C cable.
- Up to 7 USB ports (Type-A & Type-C) for flexible and efficient expansion.
- Delivers smooth and sharp visuals with dual HDMI/DP 4K@60Hz outputs.
- VESA-compatible design streamlines your workspace and showcases your style.
- Seamlessly supports Windows, macOS, and Chromebook systems.
