

Wireless Display P2P Dongle *NDW6000 Series*

NDW6010 (TX) & NDW6020 (RX)

The NDW6010 and the NDW6020 are wireless P2P dongles that effortlessly mirror and extend displays. These plug-and-play devices require no drivers, offering user-friendly convenience. The NDW6010, with USB-C support and DP Alt mode, ensures seamless cross-platform connectivity with Windows, macOS, iOS, and Android OS on PCs, tablets, or mobile phones. Meanwhile, the NDW6020 includes an HDMI connection for TV and monitor compatibility. These devices are ideal and dependable connectivity partners, enhancing your user experience across a range of applications.

Every NDW6000 is delivered as a completely paired set from the factory. In the event of connectivity issues, it can easily be reset using the built-in reset button on the NDW6010. The NDW6000 also enables re-pairing: simply press another reset button on the NDW6020 to revert to pairing mode, then press the pair button on the NDW6010 for fewer than 5 seconds for a quick and seamless re-pairing process, eliminating any complicated steps.

Wireless Display P2P Dongle NDW6010 (TX) & NDW6020 (RX)
