USB-C Universal Dual 4K Smart Dock

DUD8380

Massive Deployment | Energy Saving | Firmware Upgrade | Security Enhancement | Remote Management | Data Visualization

The DUD8380 serves as a smart managed dock, adopting USB-C DisplayLink technology. Leveraging cloud management, its data visualization dock management portal offers seamless remote I/O port management, LAN-driven firmware updates, and mass deployment, ensuring effortless management for IT administrators. Its intelligent power control features enable scheduled power-off functions, aligning seamlessly with ESG trend and promoting energy efficiency. The platform provides real-time monitoring and notifications for the dock's status, solving problems remotely and immediately, and reducing maintenance costs. Additionally, the portal can detect any unprovisioned dock, allowing IT administrators to add the dock via the portal or APP, safeguarding the company's hardware and information security. Beyond intelligence, the DUD8380 also supports content extension to 4K resolution displays and power delivery, ensuring information security and uninterrupted productivity for enterprises and professionals.

Feature

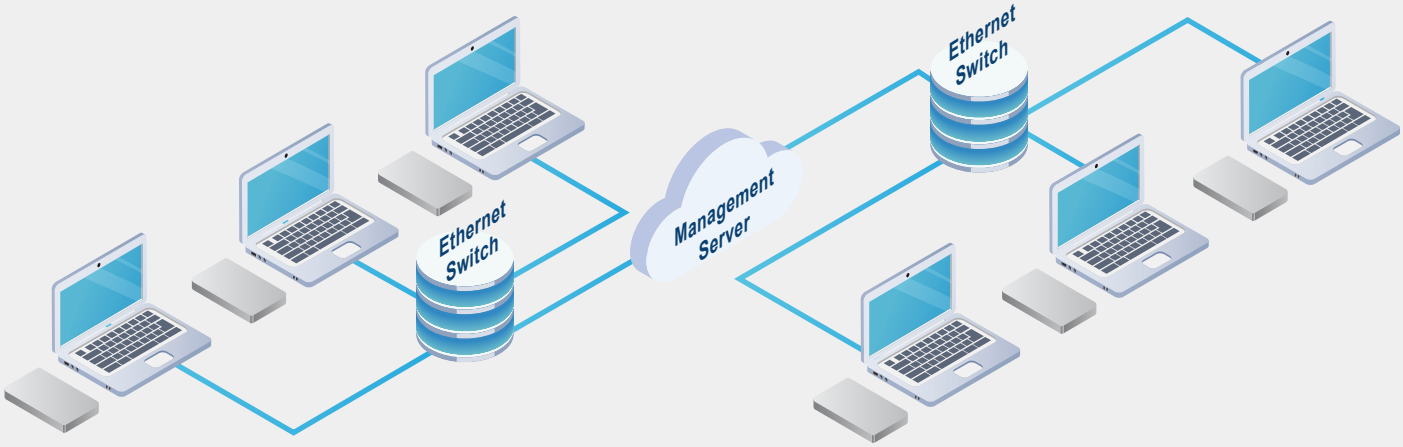
IoT

- Remote dock management, firmware upgrade, and troubleshooting via the smart dock management portal.
- Easy-to-use smart dock portal with a data visualization dashboard, dock monitoring and control, real-time notifications, and usage record analytics.
- Scheduled power on/off settings for better energy-saving performance..
- Security enhancement with automatic portal detection of unassigned devices.
- Ideal for mass dock deployment and management.

Dock

- USB-C DisplayLink technology.
- USB-C UFP with PD charging up to 96W.
- 2× DP/HDMI, Dual 4K60 displays.
- USB DFP with 2× USB-C 10G (one with PD20W), 2× USB-A 5G, and 3× USB-A 10G, Built-in LAN and audio ports.

Advantages of Good Way's Smart Dock with Portal

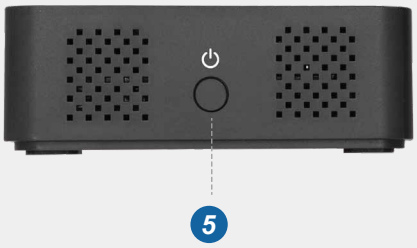


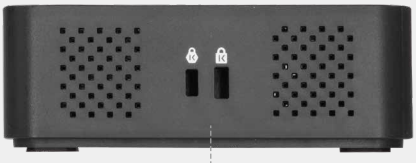
Good Way Cloud Management System is designed to manage docking stations for an entire company or organization, offering the flexibility to operate as either a public cloud or an on-premises server. This system provides IT managers with comprehensive tools to efficiently handle dock management tasks, including firmware updates, remote access control for USB peripherals and monitors.

With a rich set of features, the system allows IT managers to effortlessly implement access controls and even schedule automatic shutdowns of equipment after work hours to promote energy savings. The system's user-friendly web management interface provides a detailed, visual approach to managing all aspects of the docking stations, ensuring smooth and efficient operations.

One of the standout features of this system is that it requires no additional software installation on individual computers. Even in situations where no computers are connected, the docking stations can seamlessly connect to the server and perform all necessary functions, making it an incredibly versatile and powerful tool for any IT management team.

USB-C Universal Dual 4K Smart Dock





1 USB-A 10G (BC1.2)

2 3.5mm TRRS Audio Jack (Microphone/Headset)

3 USB-C 10G

4 USB-C 10G with PD20W

5 Power Button

6 Power in

7 USB-C to laptop

8 USB-A 10G

9 DisplayPort

10 HDMI
