GOODWAY

ArgusPTZ

AI PTZ Control System

Go Beyond AI Cameras, Upgrade Your PTZ Cameras with Intelligence

Control multiple PTZ

Simultaneous management and operation of camera clusters (4, 8, 12, or more, depending on hardware specifications).

Vision AI

Supports facial, vehicle, clothing, and object detection with custom-trained models.

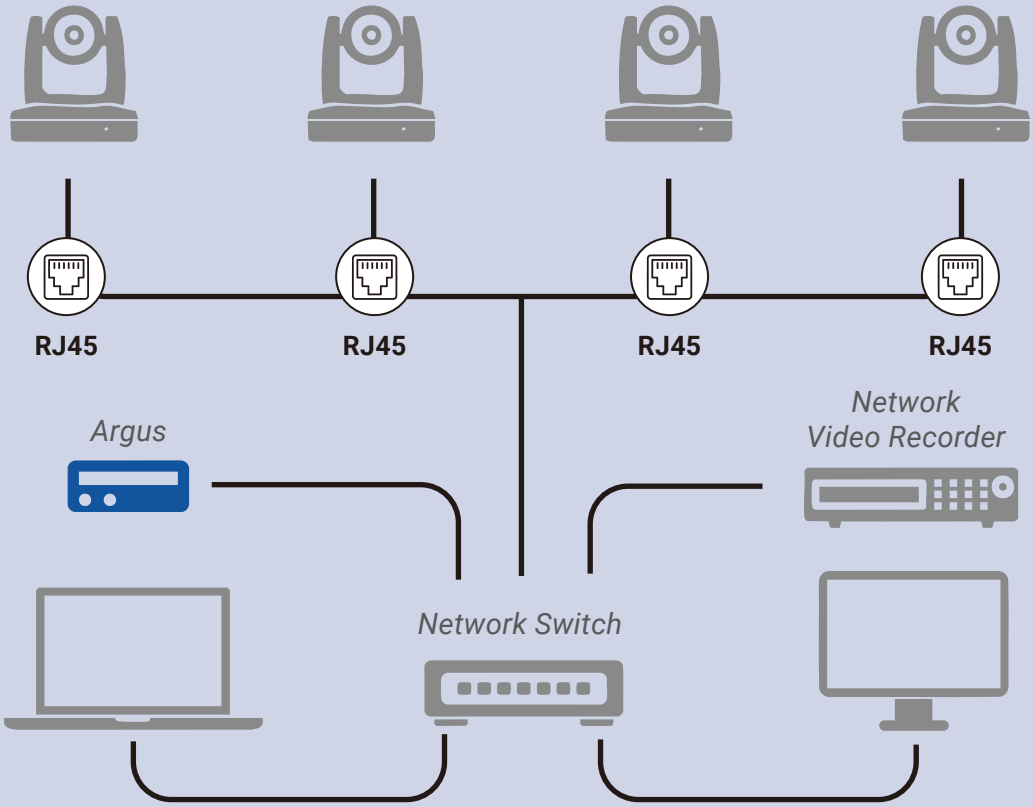

Scenario-Based PTZ Control at Scale

Configure camera groups, schedules, and event-triggered actions easily.

Voice AI & Language Model

Simply speak, and ArgusPTZ understands your intent. Easily switch tracking targets and execute complex pan/tilt sequences via voice commands.

AI Control at the Core

Usage Scenarios

- CAMPUS OR FACTORY
- HOSPITAL
- MALL OR CASINO
- CONFERENCE
- STUDIO FOR LIVESTREAMER
- CLASS OR CHURCH

And many more: Theater, farms, military...

The versatile applications of AI-driven camera control extend to numerous other industries, offering tailored solutions to meet specific needs.

Turn Your PTZ Cameras into Intelligent Systems
